Doorway Buildings and Grounds Doorway

Teachers responsible: T.G. Lewis, Gustavo Rodriguez, Maximo Mendez

Primary School Students:

Senior School Students:

<p>Current situation 01.06.10 There are three main buildings in the school, Primary, Secondary and the new building. As the new building is still to be completed it means that the review process must be on going to reflect the changes within the school. The Primary building houses 16 classrooms and 7 administrative areas and the Primary Library. The Senior School has 14 classrooms, 4 laboratories, Victoria Hall and the Audio visual room. On the third floor there are 12 rooms which are all there for administration. The new building houses the 2 Art rooms, 2 Drama rooms, Cafeteria, Swimming pool, Language support, Hiram Bingham Teachers and Parents Association, Religion / CAS room, Senior Library and it will have a sports Hall and a Theatre. Around the school we have green spaces punctuated by Football pitches, a basketball court and a primary games area. There is a maintenance team which is involved with</p>	<p>Plan for the future</p> <p>6 months To keep the buildings as clean and tidy as they are now. By doing this we will reduce costs and save on energy and material expenditure in the future.</p> <p>1 year Develop the compost to prepare and use more of our own material to fertilize the area.</p>	<p>Project 1</p> <p>To have a campaign with the students to save energy and materials.</p> <p>Work with the gardeners to develop a larger compost heap to help our own grounds.</p>
---	---	--

<p>cleaning and monitoring the buildings and two gardeners who are charged with the up keep of the grounds.</p> <p>The two main buildings are well maintained and stable; however, the new building is generating a great deal debris. It will not be until the work has been completed until the site is cleared.</p>	<p>When it is possible replace our existing plants with more sustainable plants such as fruit or nut trees.</p> <p>Introduce an education programme to help the students to understand the plants better. Then it is hoped that they will look after them better.</p> <p>3 years To develop new projects</p>	<p>To work with the different elements of school on our replacement policy.</p> <p>The doorway team is to work with teachers and curriculum coordinators to introduce an education policy to improve the knowledge of the students about the plants and animals in our school. This is to enable the students to take more care of their environment.</p> <p>To reassess what has happened and improve what is taking place.</p> <p>To work with the students to look for new projects.</p>
