<p>Current situation 01.06.10</p>	<p><u>Plan for the future</u></p> <p><u>6 months</u></p> <ul style="list-style-type: none"> ♥ Prepare our students to visit Argentina in order to take information related to the work they do at school in different subjects related with sustainable development. 	<p><u>Project 1</u></p> <ul style="list-style-type: none"> ♥ Visit to Saint George's North - School in Buenos Aires – Argentina, from October 1st to October 14th.
	<p><u>6 months</u></p> <ul style="list-style-type: none"> ♥ Include other school members: (Teachers, students, parents and School workers) to grow more vegetables in our school. 	<p><u>Project 2</u></p> <ul style="list-style-type: none"> ♥ Keep on working in the Hydroponics Project. The sale of the vegetables will go to CAS to make social work.
	<p><u>6 months</u></p> <ul style="list-style-type: none"> ♥ Contact the teacher Lisa Baker in Merchants Academy to start correspondence and learn about different cultures. 	<p><u>Project 3</u></p> <ul style="list-style-type: none"> ♥ Start corresponding with Merchants Academy in Bristol England when they start school in September 2010

	<p><u>1 year</u></p> <ul style="list-style-type: none"> ♥ Create awareness in our school about the importance of preserving nature. 	<p><u>Project 4</u></p> <ul style="list-style-type: none"> ♥ Invite different people who know about sustainable development, in order to prepare debates, talks, films, round tables about global warming and its effects. The main idea is to teach our students that the local benefits will impact the whole world.
	<p><u>1 year</u></p> <ul style="list-style-type: none"> ♥ During the study trips, it will be interesting while visiting the different regions in Perú, to go to local schools, in order to teach the students to be aware about the preservation of the planet. 	<p><u>Project 5</u></p> <ul style="list-style-type: none"> ♥ Visit schools during our study trips in order to share experiences and from our side, teach the students to protect their town, reducing, recycling, reusing and respecting the nature.
	<p><u>3 years</u></p> <ul style="list-style-type: none"> ♥ In the study trips, our students and teachers must contact local artisan producers of various goods; Art crafts, jewelry, honey, algarrobina, Olive Oil, etc, to help them in fair trade and avoid third persons that raise the value of their commodities. 	<p><u>Project 6</u></p> <ul style="list-style-type: none"> ♥ During the study trips, students must search local producers to help them in Fair Trade. ♥ Sell the products of the artisan producers with no extra costs.
